DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 1, 4 & 6-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites that a color transition occurs "in response to a concentration of 0% to about 20% by weight of dialdehyde." It is unclear how the color change is only responsive to this range of dialdehyde and how there would be a "detectable and measurable" color transition at 0%. Further clarification is required.

Response to Arguments

3. Applicant's arguments filed 11/2/2005 have been fully considered but they are not persuasive.

Applicant has argued that the claim 1 is clear on its face with regard to how the composition is only responsive to the recited range of dialdehyde. However, in applicant's remarks it is clear that there is a detectable and measurable color change for dialdehyde amounts outside of this range (see remarks page 8, 1st full paragraph). Thus, it remains unclear how absent additional information such as specific absorbance or color parameters the instant composition specifically measures 0-20% dialdehyde.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
